

# The Big Herd

Fisher went to the zoo with his class and teacher. Fisher wanted to see big herds of animals at the zoo, but he did not want to touch any of the germs at the zoo. Fisher washed his hands a lot to get the germs off. Fisher did not care about the germs once he saw the herd of elephants.

① What is a *herd*?

---

---

---

② Who did Fisher go to the zoo with?

---

---

---

③ What herd of animals did Fisher see?

---

---
