

Endangered Animal Research Report

My Animal: _____

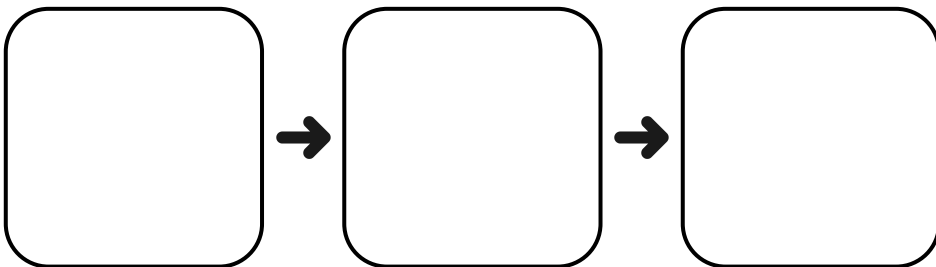

By: _____

Food Chain

What does your animal eat? How does it get its food?

What are your animal's predators (what eats it)?

Habitat

Where does your animal live?

What other important plants or animals live in this ecosystem?

What animals are in competition for food or other resources?

Endangered Status

How many of these animals are left in the world?

Why are they endangered? What threats do they face?

What are people trying to do to help this animal?

What would happen to the ecosystem if this animal went extinct?
