

Name: _____

Exploring Gravity

Work with a partner to complete the activity.

Step 1: Discuss what you know about gravity with your partner. Write your answer and draw an example of gravity.

Materials Needed:

- ✧ Pencil
- ✧ Small Book
- ✧ Crayon
- ✧ Folder

Gravity is _____

Step 2: One partner holds a pencil and the other partner holds a small book at the same height. Predict what will happen if you both drop them at the same time. Record and draw your prediction.
