Clark County School District

2026–2027 Open Enrollment Eligibility

Overview

The Clark County School District (District) Regulation 5112, Change of School Assignment, establishes practices for student enrollment that ensure fairness, consistency, and the efficient use of District resources. During the 2025 legislative session, multiple bills were introduced regarding open enrollment, school choice, and school transfers in Nevada, including Assembly Bill 533. Beginning with the 2026–2027 school year, this process will officially operate under the name Open Enrollment, formerly known as Change of School Assignment (COSA). Additionally, District Regulation 5112, Change of School Assignment, is being revised currently to reflect these changes.

Eligible Open Enrollment Schools

Please review the preliminary list of eligible Open Enrollment schools for the 2026–2027 school year. Only schools with available space will be included on the preliminary list. Additional schools will be added once final evaluation of current enrollment and available space at each school building is determined.

To identify the schools eligible for Open Enrollment for the upcoming school year, the Comprehensive Planning compared student enrollment on Wednesday, August 27, 2025, with the school's program capacity from the previous school year. This comparison generates a percent enrolled of capacity calculation for each school. Schools below the 105 percent of capacity threshold were eligible for Open Enrollment with the following exceptions:

- The grade levels were assessed at schools within +/-5 percent of the 105 percent threshold. Students in Grade 5 rolling out were compared with Kindergarten students rolling up (e.g., an elementary school is 105.35 percent of capacity and has 154 students in Grade 5 rolling out and 121 students in Kindergarten. This would be an approximate reduction of 33 students in enrollment, thereby providing the availability of some Open Enrollment seats).
- The increased enrollment potential for the upcoming school year from residential developments within the school zone was considered (e.g., an elementary school is 100.31 percent of capacity and has 94 students in Grade 5 rolling out, 113 students in Kindergarten, and 123 students in Grade 1 rolling up. In addition to six residential developments, four are large apartment complexes. For this reason, this elementary school would not be eligible for Open Enrollment).
- As a default, all choice programs, such as magnet schools, Career and Technical Academies, and schools with an independent enrollment process are not eligible. It is assumed these programs have the ability to adjust lottery allotments in order to accommodate for available space.

Beginning Monday, October 6, 2025, the District choice application and pertinent information regarding this process will be available on the District website.

Contact Information

For more information or questions regarding 2026–2027 Open Enrollment Eligibility, please contact Roni Stolworthy, coordinator, COSA/Open Enrollment Department, at (702) 799-1040 or via email at landsrm@nv.ccsd.net.
