

MY RESEARCH JOURNEY

THE SPARK

Over the years, many I Survived readers have suggested that I write about the Tri-State Tornado. (They send me so many great ideas!)

FINDING
ADRIAN

There are three great books about the Tri-State Tornado, and I read all of them. My colleague Allison Friedman discovered the book *Death Rides the Sky* by Angela Mason. This is where I read about Adrian Dillon.

I learned more details about the Dillons and life in Parrish by reading historical articles.

LEARNING MORE

These letters inspired me to learn more about historic tornadoes.

I read an incredible book called *Storm Kings* that took me back into early tornado science. I was fascinated!
