- 12 The table shows the mass of some objects.

Object	Mass
cellphone	133 grams
crayon	22 grams
shirt	125 grams

What is the total mass of all the objects?

grams

- 13 Terri is mailing two packages. The gray package has a mass of 8 kilograms. The brown package has a mass that is 5 kilograms more than the gray package.

**Part A**

What is the mass of the brown package?

kilograms

**Part B**

What is the total mass of both packages?

kilograms

- 14 Ally says her cat has a mass of about 5 grams. Is she correct? Explain your answer.

- 7 Which unit would you use to measure the liquid volume of each object?  
Select the boxes in the table.

Object	Milliliter	Liter
spoon	<input type="radio"/>	<input type="radio"/>
coffee cup	<input type="radio"/>	<input type="radio"/>
fish aquarium	<input type="radio"/>	<input type="radio"/>
medicine dropper	<input type="radio"/>	<input type="radio"/>
washing machine	<input type="radio"/>	<input type="radio"/>
kitchen sink	<input type="radio"/>	<input type="radio"/>

- 8 How much liquid is in this container?

milliliters

- 9 Jenny filled a watering can 4 times to water her plants. The liquid volume of her watering can is shown below. How much water did she use to water her plants?

Jenny used  liters to water all of the plants.
