

Biome Diorama

What is a **DIORAMA**? A diorama is a model representing a scene with three-dimensional figures, either in miniature or as a large-scale museum exhibit.

In what consist our project? Each one of you will create a DIORAMA of your favorite BIOME.

1. Choose one of the following biomes:
 - Tropical Rainforest.
 - Temperate Forest.
 - Desert.
 - Tundra.
 - Taiga.
 - Grassland.
 - Savanna.
 - Freshwater
2. Get a shoe box.
3. Look for toys or any material that you have at home that can help you create the diorama.
4. If you don't have toys to use for the project, you can draw on paper and then cut and paste to the shoe box.
5. **Be creative.**
6. Come prepare to present your work on **Monday, May 18, 2020**

Example of Dioramas
