FRACTION SUNDAE

Directions: Each child needs 1 bowl and the scoops of ice cream they want to use. You can give a limit on how many scoops to include, or have students decide what their total amount (denominator) will be. Once students have assembled their sundaes, they will write the fractions for each flavor used. Also, you don't have to use all of the flavors above! I have provided a few different recording sheets so that you can do what is best for your class!

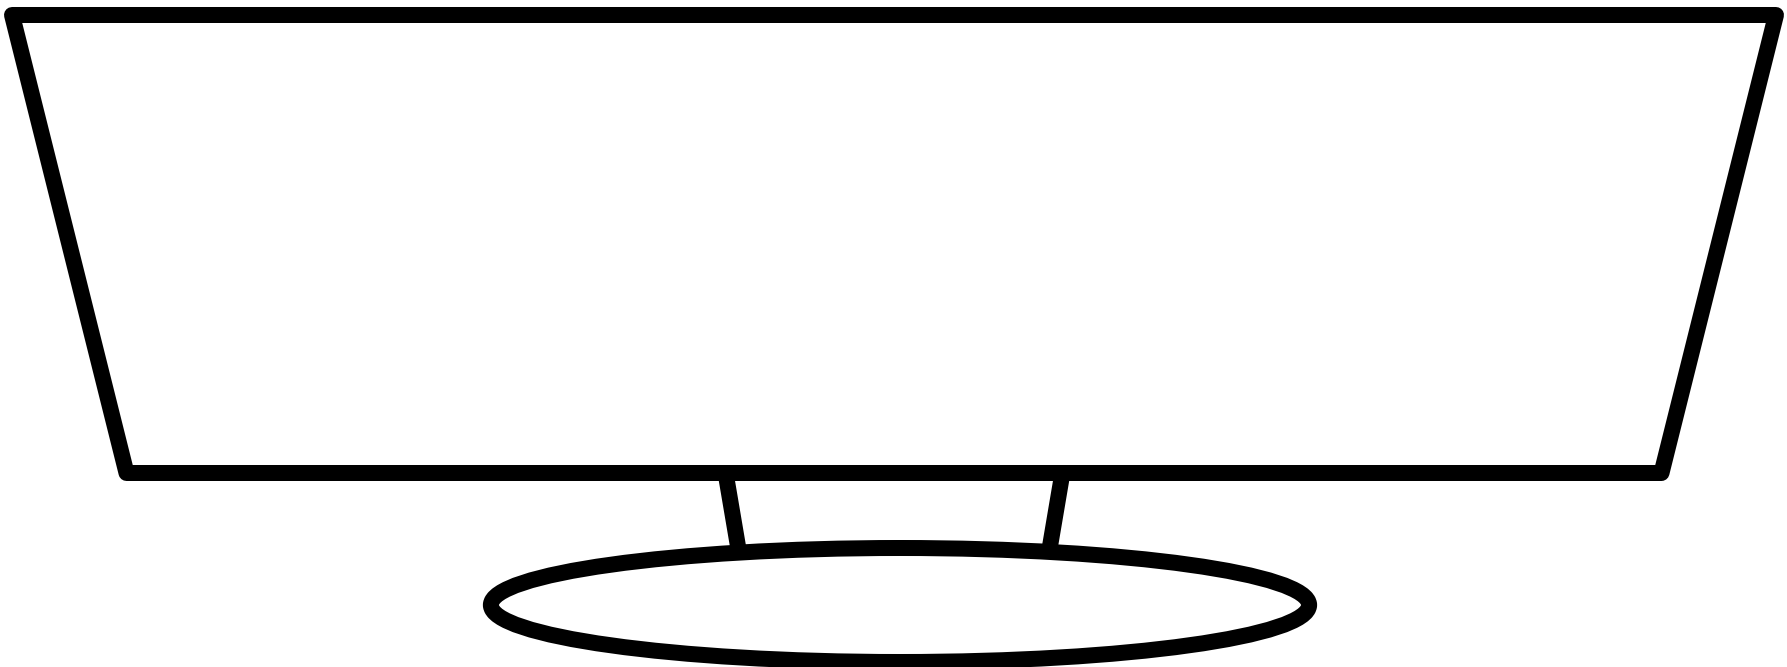

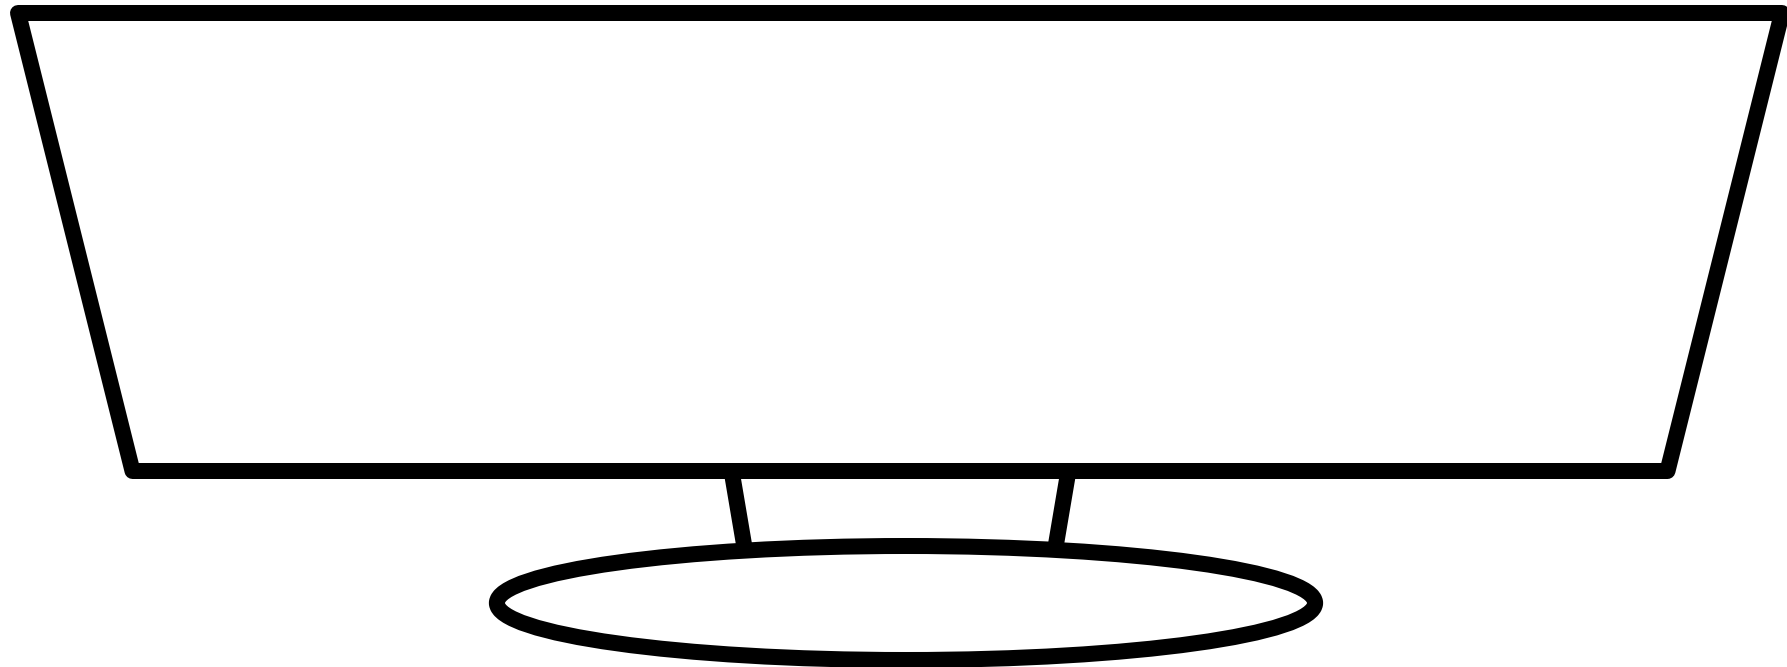

RED=CHERRY, PINK=STRAWBERRY, PURPLE/BLUE=BLUEBERRY
MANILA=VANILLA, BROWN=CHOCOLATE, GREEN=MINT, WHITE=COOKIES 'N CREAM
